Experience

MobileWash *Project Manager*

Oct 2019–
Feb 2020

• Monitored four offshore teams' progress through daily standups, one-on-ones, and through Jira
• Coordinated nine developers across web and mobile development in an agile environment
• Assisted the Project Owner with day-to-day tasks. Provided keynotes for meetings and collaborated on key features for weekly/bi-weekly sprints

Lambda *Team Lead*

May 2019–
Aug 2019

• Led daily standups with full team, and one-on-ones with developers
• Provided guidance for weekly deadlines, assisted in front-end, back-end, documentation, and code reviews
• Oversaw and motivated teams of up to 8 people across web, data science, and UX designers

Ultimate Drafting *Project Coordinator*

Dec 2017–
Feb 2019

• Collaborated with construction manager and city department officials to resolve queries for construction progress and to ensure compliance with all safety procedures at site
• Developed and maintained accurate and complete files for projects while monitoring for integrity and completeness
• Coordinated meetings with city departments, serving as primary liaison

SQAsquared *Jr QA*

Aug 2016–
Oct 2017

• Designed test cases for automation and manual testing; performed various types of testing, including regression and functional. Reported bugs using TFS
• Attended daily standups, working with various teams with on-off site members to accomplish our sprints within time

Allstaff *Web Developer*

Jan 2014–
July 2016

• Acquired skills in web development using Wordpress with HTML/CSS JS jQuery to develop and maintain sites

Projects

Portfolio
